

E-BOOKS

Finding Ebooks in your subject area

International Space University Library has access to a large number of Ebooks which are available via the internet. These can be accessed from anywhere and at any time by ISU staff and students currently involved with an ISU program.

Benefits of Ebooks

They are always available 24/7, 365 days of the year for you to use. Each book can be used simultaneously by anyone who needs it and you can download them to your portable device for off-line reading.

Important note

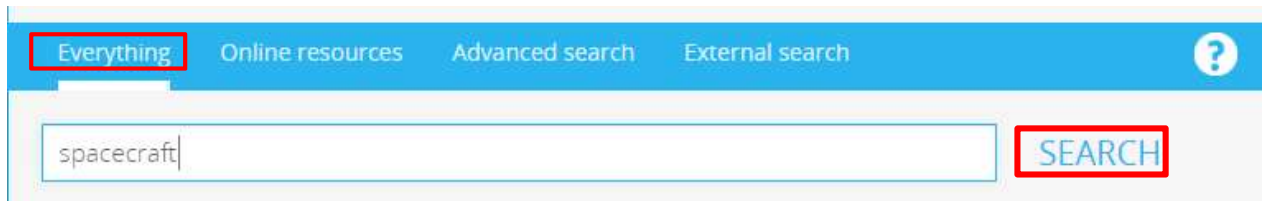

To access Ebooks, you will have to authenticate yourself with your ISU network credentials.

Finding Ebooks in your subject area

Find Ebooks via the Library online catalogue

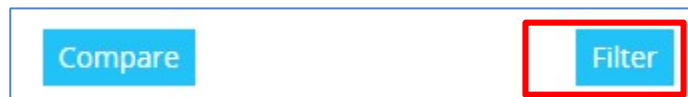

1. Go to the Library website at <https://isulibrary.isunet.edu/opac>
2. Run a simple search

3. Refine your search by Material Type

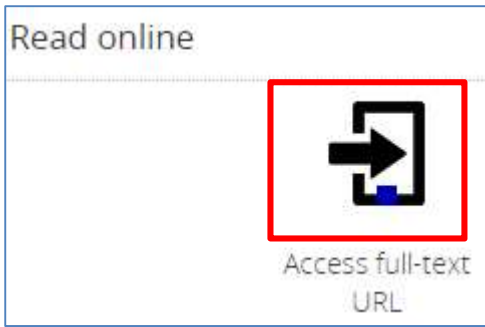

Scroll down and click "Filter".

4. You may display the entire record by clicking on the title or directly click on E-resource

5. Click on the link "Access full-text URL" in the "Read online" field.

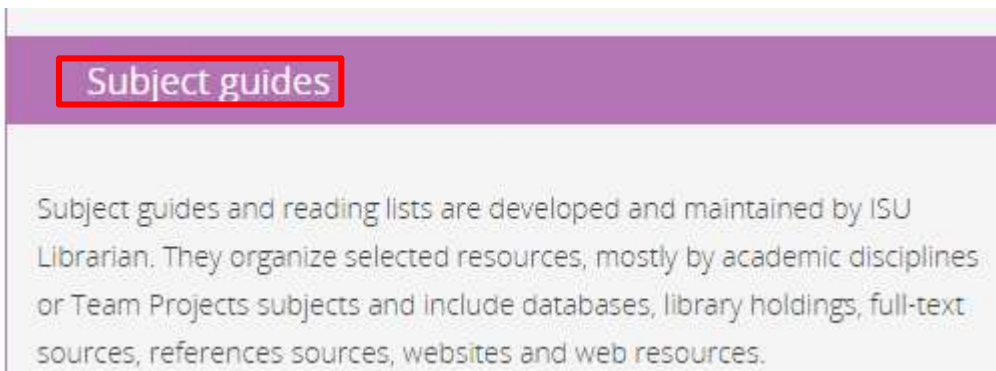

A new screen will open provided by the eBook supplier.

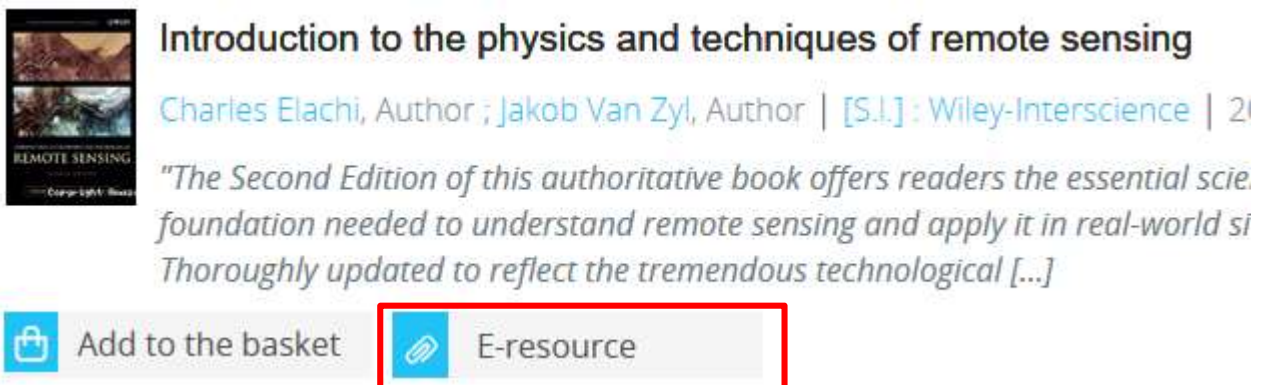

Enter your ISU network ID when prompted to do so plus the supplier login/password (ebrary) when prompted.

Browse Ebooks via subject guides and/or reading lists

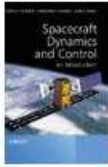

1. Go to the Library website at <https://isulibrary.isunet.edu/opac/>
2. Ebooks can be found at various places like in the Browse menu or in subject guides

3. Usually eBooks have the indication E-resource as shown below:

4. You may display the entire record by clicking on the title or directly click on E-resource

Spacecraft dynamics and control : an introduction /

Christopher Damaren, Author ; James R. Forbes, Author ; Anton H. J. De Ruiter, Author | Hoboken, N.J. : John Wiley & Sons | 2013

This work provides the basics of spacecraft orbital dynamics plus attitude dynamics and control, using vectrix notation. The book presents the fundamentals of classical control in the context of spacecraft attitude control

 Add to the basket  E-resource

5. Click on the link "Access full-text URL" in the "Read online" field.
